

Private AI: Real Estate Innovation

Drive innovation while prioritizing data protection and operational smarts with Nethopper's private generative AI solution, securely implemented in your own company.

Private AI for Your Business

Powered by Nethopper

Smart Valuations

Analyze extensive datasets, (e.g., market trends, historical sales, & property attributes) to deliver accurate valuations and customized insights.

Operational Efficiency

Free up professionals to focus on strategic responsibilities such as negotiation and portfolio management

Data Privacy & Security

Ensure sensitive client and transactional data remains secure within your infrastructure, complying with GDPR while protecting business info.

Why Choose Us?

Nethopper is a leading provider of private, turnkey AI solutions for businesses. Our KAOPS platform delivers secure, scalable AI, empowering all employees to unlock the full value of generative AI while maintaining security, privacy, and control over corporate data.

- ✓ Control your AI strategy
- ✓ Reduce time, cost, & risk
- ✓ Customize, retrain AI models
- ✓ Deploy AI in days, not months
